Hardware Technology & Components Integrated with Command Communication Center

APTIDCO
Hardware Appliances at Command Communication Center

- Fire detection/suppression
- Environment Monitoring
- Leak/Smoke Sensor
- Integrated Server Rack
- Alarm Beacon/Camera POD
- Automatic Transfer Switch
- Rack mounted UPS
- IP PDU
Server Room

- Monitoring & Security
- Cooling Expertise
- Dedicated Whitespace
- Integrated Racking & Cooling
- Office & Workspace
- Trusted UPS Protection
- Power Distribution
- Management & Control
- Adaptable & scalable UPS

Hardware Technology & Components Integrated with Command Communication Center

APTIDCO
Advantages

01. Real-time assessment, planning & monitoring of construction sites

02. Enhanced decision making through mobile and web applications analytics, reporting and tools

03. CCC acting as a single roof for reporting, monitoring & control
Technology Component used for Command Communication Center

For the deployment of the Command Communication Center the following are required:
- Space - Min 6000sft Room
- Industrial grade Professional display: LCD/LED/DLP/LASER
- Professional Videowall Controller
- Switcher,
- Scallers, Extenders
- Reclined Monitors & Interactive systems
- Workstations with Minimum dual display
- RTMS servers
- Professional Wireless presentation device
- Industrial grade server
- Online Ups,
- AV equipment
- Air conditioning,
- Fire alarm system,
- Power back up system,
- Racks,
- Firewall,
- Manpower based on the organization and work sizing.
Thank You
