PMAY(U): TRANSFORMING LIVES

Mrs. Keyipeukule is a 93 year old widow living in Jalukie Town, Nagaland. In order to look after her 8 children, she and her husband used to work as daily wage earner in paddy fields that were owned by others in the surrounding villages. But when her husband passed away, her income reduced drastically and she was forced to move to her own plot of land in Jalukie and started living in a two-room run down kuccha house. After 40 long years, at the age of 93, she could afford to build a Pucca two room house with the support from PMAY(U). It is now more than 5 months, she has been living in her new pucca house. She expresses her gratitude with her folded hands "At the age of 93, people become dependent, but with the help of PMAY(U), I am not only independent but happily living and supporting my family under the pucca roof house".
