

LEKSHMI G

KERALA

Lekshmi G, a PMAY(U) beneficiary from Thiruvananthapuram district of **Kerala**, feels happy and proud to reside in her own house which she had dreamt about for a very long time. She, along with her husband and two children, used to live in on rent. They hail from a very humble background. Lekshmi's husband is a daily wage earner. He works as an electrician while she supports him by working as an ayurveda therapist at a government hospital. Their earnings were not sufficient to meet the daily expenses of the family. The couple couldn't afford to pay the rent of the house.

It was a dream for Lekshmi to have her own home. The dream couldn't be easily achieved. They went through a lot of hardships. When things got better, Lekshmi started saving and bought a land in her name. It was a turning point in her life. Soon, she learnt about PMAY(U) Scheme and received financial assistance to build her home.

The transformation happened then. She successfully managed to complete the construction of her house with all the basic amenities. Today, she lives in a safe and secured house.

"I never thought that I will own a beautiful house like this, it's really a dream come true," says Lekshmi.
